PRECAUTIONS TO AVOID POSSIBLE EXPOSURE TO EXCESSIVE MICROWAVE ENERGY

1. Do not attempt to operate this oven with the door open since open door operation can result in harmful exposure to microwave energy. It is important not to defeat or tamper with the safety interlocks.
2. Do not place any object between the oven front face and the door or allow soil or cleaner residue to accumulate on sealing surfaces.
3. Do not operate the oven if it is damaged. It is particularly important that the oven door close properly and that there is no damage to the
   1) Door (bent),
   2) Hinges and latches (broken or loosened),
   3) Door seals and sealing surfaces.
4. The oven should not be adjusted or repaired by anyone except properly qualified service personnel.

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliance basic safety precautions should be followed, including the following:

**WARNING**: To reduce the risk of burns, electric shock, fire, injury to persons or exposure to excessive microwave energy:

1. Read all instructions before using the appliance.
2. Use this appliance only for its intended use as described in this manual. Do not use corrosive chemicals or vapors in this appliance. This type of oven is specifically designed to heat, cook or dry food. It is not designed for industrial or laboratory use.
3. Do not operate the oven when empty.
4. Do not operate this appliance if it has a damaged cord or plug, if it is not working properly or if it has been damaged or dropped. If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.
5. **WARNING**: Only allow children to use the oven without supervision when adequate instructions have been given so that the child is able to use the oven in a safe way and understands the hazards of improper use.
6. **Warning**: When the appliance is operated in the combination mode, children should only use the oven under adult supervision due to the temperatures generated.
7. To reduce the risk of fire in the oven cavity:
   a. When heating food in plastic or paper container, keep an eye on the oven due to the possibility of ignition;
   b. Remove wire twist-ties from paper or plastic bags before placing bag in oven.
   c. If smoke is observed, switch off or unplug the appliance and keep the door closed in order to stifle any flames.
   d. Do not use the cavity for storage purposes. Do not leave paper products, cooking utensils or food in the cavity when not in use.
8. **WARNING**: Liquid or other food must not be heated in sealed containers since they are liable to explode.
9. Microwave heating of beverage can result in delayed eruptive boiling, therefore care has to be taken when handling the container.
10. Do not fry food in the oven. Hot oil can damage oven parts and utensils and even result in skin burns.
11. Eggs in their shell and whole hard-boiled eggs should not be heated in microwave ovens since they may explode even after microwave heating has ended.
12. Pierce foods with heavy skins such as potatoes, whole squashes, apples and chestnuts before cooking.
13. The contents of feeding bottles and baby jars should be stirred or shaken and the temperature should be checked before serving in order to avoid burns.
14. Cooking utensils may become hot because of heat transferred from the heated food. Potholders may be needed to handle the utensil.
15. Utensils should be checked to ensure that they are suitable for use in microwave oven.
16. **WARNING**: It is hazardous for anyone other than a trained person to carry out any service or repair operation which involves the removal of any cover which gives protection against exposure to microwave energy.
17. This product is a Group 2 Class B ISM equipment. The definition of Group 2 which contains all ISM
(Industrial, Scientific and Medical) equipment in which radio-frequency energy is intentionally generated and/or used in the form of electromagnetic radiation for the treatment of material, and spark erosion equipment. For Class B equipment is equipment suitable for use in domestic establishments and in establishments directly connected to a low voltage power supply network which supplies buildings used for domestic purpose.

18. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

19. Children should be supervised to ensure that they do not play with the appliance.

20. The microwave oven is only used in freestanding.

21. WARNING: Do not install oven over a range cooktop or other heat-producing appliance. If installed could be damaged and the warranty would be void.

22. The accessible surface may be hot during operation.

23. The microwave oven shall not be placed in a cabinet.

24. The door or the outer surface may get hot when the appliance is operating.

25. The temperature of accessible surfaces may be high when the appliance is operating.

26. The appliance shall be placed against a wall.

27. WARNING: If the door or door seals are damaged, the oven must not be operated until it has been repaired by a competent person.

28. The instructions shall state that appliances are not intended to be operated by means of an external timer or separate remote-control system.

29. The microwave oven is for household use only and not for commercial use.

30. Never remove the distance holder in the back or on the sides, as it ensures a minimum distance from the wall for air circulation.

31. Please secure the turn table before you move the appliance to avoid damages.

32. Caution: It is dangerous to repair or maintain the appliance by no other than a specialist because under these circumstances the cover have to be removed which assures protection against microwave radiation. This applies to changing the power cord or the lighting as well. Send the appliance in these cases to our service centre.

33. The microwave oven is intended for defrosting, cooking and steaming of food only.

34. Use gloves if you remove any heated food.

35. Caution! Steam will escape, when opening lids or wrapping foil.

36. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children unless they are aged from 8 years and above and supervised.

37. If smoke is emitted, switch off or unplug the appliance and keep the door closed in order to stifle.
INSTALLATION

1. Make sure that all the packing materials are removed from the inside of the door.

2. **WARNING**: Check the oven for any damage, such as misaligned or bent door, damaged door seals and sealing surface, broken or loose door hinges and latches and dents inside the cavity or on the door. If there is any damage, do not operate the oven and contact qualified service personnel.

3. This microwave oven must be placed on a flat, stable surface to hold its weight and the heaviest food likely to be cooked in the oven.

4. Do not place the oven where heat, moisture, or high humidity are generated, or near combustible materials.

5. For correct operation, the oven must have sufficient airflow. Allow 20cm of space above the oven, 10cm at back and 5cm at both sides. Do not cover or block any openings on the appliance. Do not remove feet.

6. Do not operate the oven without glass tray, roller support, and shaft in their proper positions.

7. Make sure that the power supply cord is undamaged and does not run under the oven or over any hot or sharp surface.

8. The socket must be readily accessible so that it can be easily unplugged in an emergency.

9. Do not use the oven outdoors.

RADIO INTERFERENCE

Operation of the microwave oven can cause interference to your radio, TV, or similar equipment. When there is interference, it may be reduced or eliminated by taking the following measures:

1. Clean door and sealing surface of the oven.

2. Reorient the receiving antenna of radio or television.

3. Relocate the microwave oven with respect to the receiver.

4. Move the microwave oven away from the receiver.

5. Plug the microwave oven into a different outlet so that microwave oven and receiver are on different branch circuits.

GROUNDING INSTRUCTIONS

This appliance must be grounded. This oven is equipped with a cord having a grounding wire with a grounding plug. It must be plugged into a wall receptacle that is properly installed and grounded. In the event of an electrical short circuit, grounding reduces risk of electric shock by providing an escape wire for the electric current. It is recommended that a separate circuit serving only the oven be provided. Using a high voltage is dangerous and may result in a fire or other accident causing oven damage.

**WARNING** Improper use of the grounding plug can result in a risk of electric shock.

**Note:**

1. If you have any questions about the grounding or electrical instructions, consult a qualified electrician or service person.

2. Neither the manufacturer nor the dealer can accept any liability for damage to the oven or personal
injury resulting from failure to observe the electrical connection procedures.
The wires in this cable main are colored in accordance with the following code:
Green and Yellow = EARTH
Blue = NEUTRAL
Brown = LIVE

MICROWAVE COOKING PRINCIPLES

1. Arrange food carefully. Place thickest areas towards outside of dish.
2. Watch cooking time. Cook for the shortest amount of time indicated and add more as needed. Food severely overcooked can smoke or ignite.
3. Cover foods while cooking. Covers prevent spattering and help foods to cook evenly.
4. Turn foods over once during microwaving to speed cooking of such foods as chicken and hamburgers. Large items like roasts must be turned over at least once.
5. Rearrange foods such as meatballs halfway through cooking both from top to bottom and from the center of the dish to the outside.

BEFORE YOU CALL FOR SERVICE

If the oven fails to operate:
1. Check to ensure that the oven is plugged in securely. If it is not, remove the plug from the outlet, wait 10 seconds, and plug it in again securely.
2. Check for a blown circuit fuse or a tripped main circuit breaker. If these seem to be operating properly, test the outlet with another appliance.
3. Check to ensure that the control panel is programmed correctly and the timer is set.
4. Check to ensure that the door is securely closed engaging the door safety lock system. Otherwise, the microwave energy will not flow into the oven

IF NONE OF THE ABOVE RECTIFIES THE SITUATION, THEN CONTACT A QUALIFIED TECHNICIAN. DO NOT TRY TO ADJUST OR REPAIR THE OVEN YOURSELF.

UTENSILS GUIDE

1. The ideal material for a microwave utensil is transparent to microwave, it allows energy to pass through the container and heat the food.
2. Microwave cannot penetrate metal, so metal utensils or dishes with metallic trim should not be used.
3. Do not use recycled paper products when microwave cooking, as they may contain small metal
fragments which may cause sparks and/or fires.

4. Round /oval dishes rather than square/oblong ones are recommend, as food in corners tends to overcook.

5. Narrow strips of aluminum foil may be used to prevent overcooking of exposed areas. But be careful don’t use too much and keep a distance of 1 inch (2.54cm) between foil and cavity

The list below is a general guide to help you select the correct utensils.

CONTROL PANEL

DISPLAY SCREEN
Cooking time, power, indicators and present time are displayed.

NUMBER PADS
Use to enter clock, cooking time, temperature, etc.

QUICK COOK BUTTONS
Instant settings to cook popular foods.

STEAM CLEAN/DODEORIZE
Press to use steam to clean the oven inside.
Press to set a deodorize program.

KEEP WARM/ FERMENT
Press to set the oven to operate at keep warm and fermentation mode.

DISINFECT
Set the disinfection function

MICROWAVE POWER LEVEL
Press to select microwave power level.

GRILL/ MICROWAVE+GRILL
Press to set a grill-cooking program. Press to select one of two combination cooking settings.

PREHEAT/CONVECTION
Press to program convection cooking.

MICROWAVE+CONVECTION
Press to select one of four combination cooking settings.

TIMER/CLOCK
Use to set the clock and the oven timer.

WEIGHT DEFROST
Touch to set a defrost program by the weight you entered.

STOP/RESET
Touch to stop cooking program or clear all previous settings before cooking starts.
It also used to set child lock.

POWER SAVE
Press to set power saving mode.

START/EXPRESS COOK
Press to start a cooking program or to start the oven to cook at 100% power level quickly.
HOW TO SET THE OVEN CONTROLS

SETTING THE CLOCK
1. In standby mode, press and hold down TIMER/CLOCK for 3 sec.
2. Use the number pads to enter clock time.
3. Press TIMER/CLOCK to confirm.

MICROWAVE COOKING
Microwave cooking allows you to customize cooking power and time. First, you select a power level by pressing the Microwave Power Level button (see the table below). Maximum cooking time is 99 minutes and 99 seconds.

Suppose you want to cook for 5 minutes at 60% power level.
1. Open the oven door and place the food, close it.
2. Press MICROWAVE POWER LEVEL button a number of times till the screen show the intended power.

<table>
<thead>
<tr>
<th>Press MICROWAVE POWER LEVEL button</th>
<th>Power Level</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>11 times</td>
<td>0%(P-00)</td>
</tr>
</tbody>
</table>

3. Use the number pads to enter cook time.
4. Press START/EXPRESS COOK button to start.

NOTE: You can check the power while cooking is in progress by pressing the MICROWAVE POWER LEVEL button.

GRILL
Maximum cooking time is 99 minutes and 99 seconds.
Suppose you want to program grill cooking for 12 minutes.
1. Open the oven door and place the food, close it.
2. Press GRILL / MICROWAVE +GRILL button once.
3. Use the number pads to enter cooking time.
4. Press START/EXPRESS COOK button.
**MICROWAVE + GRILL**

The maximum cooking time here is 99 minutes and 99 seconds. During cooking, you can see the programmed setting by pressing this button.

Suppose you want to set combination cooking for 25 minutes.
1. Open the oven door and place the food, close it.
2. Press GRILL / MICROWAVE + GRILL pad twice or thrice.

<table>
<thead>
<tr>
<th>Press GRILL / MICROWAVE + GRILL button</th>

</tr>
</tbody>
</table>

3. Use the number pads to enter cooking time.
4. Press START/EXPRESS COOK to start.

**PREHEAT/CONVECTION**

During convection cooking, hot air is circulated throughout the oven cavity to brown and make crisp foods quickly and evenly. This oven can be programmed for ten different cooking temperatures.

Maximum cooking time for convection is 99 minutes and 99 seconds.

**To Cook with Convection**

To cook with convection, press PREHEAT/CONVECTION button repeatedly to enter the desired convection temperature. (110~200℃)

Suppose you want to cook at 180°C for 40 minutes.
1. Open the oven door and place the food, close it.
2. Press PREHEAT/CONVECTION button repeatedly to select cooking temperature as shown on screen.
3. Use the number pads to enter cooking time.
4. Press START/EXPRESS COOK button to start.

**NOTE:** You can check the convection temperature while cooking is in progress by pressing the PREHEAT/CONVECTION button.

**To Preheat and Cook with Convection**

Your oven can be programmed to combine preheating and convection cooking operations. Suppose you want to preheat to 170°C and then cook 35 minutes.
1. Open the oven door and place the food, close it.
2. Press PREHEAT/CONVECTION button repeatedly to select cooking temperature as shown on screen.
3. Press START/EXPRESS COOK button to start. Beeps will sound when the designated temperature is reached.
4. Open the door and place container of food at the center of the turntable.
5. Use the number pads to enter cooking time.
6. Press START/EXPRESS COOK button to start.
**MICROWAVE + CONVECTION**

This oven has four pre-programmed settings that make it easy to cook with both convection heat and microwave automatically.

Press MICROWAVE+ CONVECTION button repeatedly to program convection temperature:

<table>
<thead>
<tr>
<th>Comb</th>
<th>Touch</th>
<th>Temperature(℃)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Comb1</td>
<td>Once</td>
<td>110</td>

</tr>
<tr>
<td>Comb3</td>
<td>3 times</td>
<td>170</td>
</tr>
<tr>
<td>Comb4</td>
<td>4 times</td>
<td>200</td>
</tr>
</tbody>
</table>

Suppose you want to cook for 24 minutes on COMB3.
1. Open the oven door and place the food, close it.
2. Press MICROWAVE+ CONVECTION button 3 times.
3. Use the number pads to enter cooking time.
4. Press START/EXPRESS COOK button to start.

**NOTE:** You can check the convection temperature while cooking is in progress by pressing the MICROWAVE+CONVECTION button. Maximum cooking time is 99 minutes and 99 seconds.

**EXPRESS COOK**

Use this feature to program the oven to start at 100% power conveniently. The max time can be set is 10 minutes.

1. Open the oven door and place the food, close it.
2. Press START/EXPRESS COOK button in quick succession to set the cooking time. The oven will auto-start immediately.

**WEIGHT DEFROST**

Suppose you want to defrost 200g frozen food.
1. Open the oven door and place the food, close it.
2. Press WEIGHT DEFROST to set 200g.
3. Press START/EXPRESS COOK to start.

**Notes:** During defrosting process, the oven will sound and pause to remind you to turn over the food and then press START/EXPRESS COOK to resume. You can set the weight from 100g to 1800g.
**AUTO COOK MENU**

For food or the following cooking mode, it is not necessary to program the duration and the cooking power. It is sufficient to indicate the type of food that you want to cook as well as the weight of this food.

1. Open the oven door and place the food, close it.
2. Press the individual icon pad to select the food and the weight.
3. Press START/EXPRESS COOK to start.

</table>
### Garlic Spaghetti

**Microwave safe cookware**

- 200gms spaghetti noodles
- 5-6 cloves of garlic
- 1/2 cup of fresh cilantro, and some more for garnish
- 5-6 tbsp soy sauce
- 2 tbsp sweet chilly sauce
- 2 tbsp regular ketchup
- salt and black pepper - to taste
- 1 cup chopped capsicum – long slices
- 1 cup chopped red onions - long slices
- 2 tbsp chopped green onions
- 2 tbsp crushed peanuts (optional)
- 2 tbsp oil

Boil and cook the spaghetti in water with 1 tbsp oil by selecting the menu. Take a non-stick pan, add 2 tbsp oil and add the chopped garlic, onions and capsicum. When they turn caramelized and have a glaze, add the soy sauce and salt. Cover with a lid and cook for 5-7 mins on medium-low flame. Then add the sweet chilli sauce and ketchup, and throw in the crushed peanuts and the chopped cilantro. Mix well; add the chopped green onions, leaving some for garnish.

Take a serving bowl and transfer the cooked pasta/noodles into it. Add the prepared veggie sauce onto the noodles and toss a little to combine. Finally, garnish with the remaining chopped green onions and a bunch of fresh cilantro leaves, and serve hot.

### Masala Spaghetti

**Microwave safe cookware**

- 200gms of spaghetti
- 1 cup tomato puree
- 1/2 capsicum, cut into cubes
- 1 bunch of spring onions
- 1 tbsp dried mixed herbs
- 1 tsp black pepper (kalimirch) powder, 1 tbsp fresh cream
- 1/2 tsp bolognese cube
- 1 tsp chilli powder, 2 tbsp olive oil
- 1 tsp garlic (lehsun) paste
- salt to taste

Boil and cook the spaghetti in water with 1 tbsp oil by selecting the menu. Meanwhile, heat olive oil in a pan and add spring onions, garlic paste and sauté for a while. Add the capsicum and stir for awhile. Add the tomato sauce and a pinch of sugar. Add pepper, Italian spice mix, red chilli powder and salt. Cook for a while. If the gravy is too thick add a little water. Finish the sauce by adding a dash of cream. Add the cooked spaghetti and cook for 2 mins. Serve hot with sourdough bread or garlic bread.
|   | **Spaghetti** with **Soya Chunks** | **Microwave safe cookware** | **250grs Spaghetti**  
25nos Soyachunks-Cooked and chopped.  
1no Onion (chopped)  
2nos Tomatoes (grounded as puree)  
1tsp Dry parsley leaves  
Pepper powder  
Salt  
Olive oil | Boil and cook the spaghetti in water with 1 tbsp oil by selecting the menu.  
Heat the olive oil, saute the onions and dry parsley leaves until the onions get well cooked, add the tomato puree to the cooking veggies with enough salt and cook everything in high flame until puree gets thickens, immediately add the cooked soyachunks, pepper powder and saute for few minutes, finally add the cooked spaghetti and toss everything gently until the veggies and soyachunks get well mixed..  
Serve hot with simple salad. |
|---|---|---|---|
|   | **Creamy prawns & Veg Spaghetti** | **Microwave safe cookware** | **1cup uncooked Spaghettis**  
20nos Prawns cleaned  
1no Onion chopped  
1cup Veggies chopped  
1tsp Vegetable Stock powder  
5nos Garlic pods sliced  
2tbsp Butter  
1/2cup Low fat Cream  
Salt  
Pepper powder-1/2tsp  
Dry Basil leaves | Boil and cook the spaghetti in water with 1 tbsp oil by selecting the menu.  
Heat the butter in a heavy bottomed pan, add the chopped onions sliced garlic pods, vegetable stock powder, stir them continuously until the onions turns translucent. Add the veggies(carrots, potatoes, celery) to the onions, cook them for a while, try to keep the veggies a bit crunchy. Now add the cleaned prawns to the veggies n cook for few minutes until they turn rose, now pour the low fat cream, and add salt n pepper powder. Bring them to boil. Add the cooked spaghetti n toss everything gently.add the basil leaves to the spaghetti and toss again for few minutes.Put off the stove. |
|   | **Spaghetti** with **baby corn** | **Microwave safe cookware** | **Spaghetti- 200gms**  
Baby corn- 5 slit lengthwise  
Tomato puree with herbs- 1tbsp(store bought)  
Tomato ketchup- 1tbsp  
Ginger garlic paste- 1tbsp  
Salt- to taste  
Pepper- 1tsp  
Olive oil- 1tsp | Boil and cook the spaghetti in water with 1 tbsp oil by selecting the menu.  
Heat oil in a pan. Add the ginger garlic paste and saute for sometime. Add the baby corn and shallow fry till they turn soft and crispy. Now add the soft soya chunks followed by the tomato puree and ketchup. Add the salt and pepper according to the taste you prefer. Add some hot water if the gravy is very thick and boil for sometime till the sauce thickens again. Add cooked Spaghetti.mix well and serve hot with the sauce. |

### 60. Cheese Pizza

**Ingredients:**
- 2 teaspoons olive oil
- 1 cup fat-free bottled pizza sauce
- 2 cups (8 ounces) shredded part-skim mozzarella cheese
- 1/2 cup (2 ounces) grated fresh Parmesan cheese

**Instructions:**
Spread sauce in an even layer over crust, leaving a 1/4-inch border. Top with mozzarella and Parmesan cheeses. Cook by selecting the menu.

---

### 61. Indian Spiced Pizza

**Ingredients:**
- Pizza Base
- Tomato - 2 medium size (chopped finely)
- Onion - 2 Medium size (chopped finely)
- Green chilly 6-8 (chopped finely)
- Cilantro - 2 tbsp. (chopped finely)
- Carrots - 2 (grated finely)
- Fresh lime juice - 1 tbsp.
- Red chilly powder - 1 tsp. (Optional)
- Olive oil - 3 tbsp.
- Turmeric - 1 tsp.

**Instructions:**
Heat 2 tbsp olive oil in a pan. Add turmeric, onion and green chillies and cook. Add tomato and let it cook. Add salt, red chilly powder (for extra spicy) and stir for 2 minutes. Place the tomato preparation on the pizza base and spread it. Sprinkle grated carrots and grated pizza cheese. Cook using the menu. Sprinkle cilantro, and serve hot.

| 64 | Minced meat kebab | Heat resistant flat dish | garam masala -1/4 tsp  
coriander -1/4 tsp  
corn starch-1/4 tsp  
oil ,salt-as per taste |
|---|---|---|---|
|   | 500 gms  minced lamb -boiled  
1/2 cup besan,  
Ingredients to be ground to paste:  
1/2 teaspoon poppy seeds-roasted,  
4 cloves garlic,  
1 teaspoon garam masala,  
1 teaspoon black cumin seeds roasted  
1 tablespoon coriander seeds roasted,  
1 teaspoon grated green ginger ;  
salt to taste;  
2 green chilies (chopped),  
1 large onion-finely chopped,  
2 large eggs,  
3 tablespoons chopped green coriander,  
3 tablespoons bread crumbs.  

Grind cooked and water dried lamb mince along with ½ cup besan, poppy seeds, garlic cloves, garam masala, black cumin, coriander seeds.  
Add the chillies and onion and mix well. Add one egg over the mince and add the chopped coriander and mix thoroughly.  
Divide the mixture into 16 portions. First roll each one into a ball and then flatten into a fat round disc.  
Dip each kabab in the beaten egg and then roll it over the bread crumbs.  
Cook kebab by selecting the menu .Serve with garnishing and chutney of your choice. |

| 65 | Chicken kebabs | Heat resistant flat dish | Minced meat-500gms  
1 Onion chopped very fine  
Garlic paste -6 cloves  
Ginger paste -1tbsp  
Fresh chopped coriander  
Lemon Juice-1 tbsp  
Yogurt (not sour)  
Garam masala -1 tsp  
Green chillies very finely -2 tsp, chopped (optional) ,  
Salt to taste  

Mix all the ingredients till all the ingredients are well blended. Cover the bowl with cling film and put into the refrigerator for an hour. Soak bamboo skewers in water to prepare the kebabs. Remove the meat mixture from fridge and divide the mix into equal portions. Take each portion and form it into a long kebab while pressing on to a skewer. Do this till the mix has firmly adhered to the skewer. Put some oil on your hands to prevent meat from sticking. Cook the kebab Basting with cooking oil as required selecting the menu. Turn the kebab as often as required. Serve piping hot on a bed of onion rings, with Mint-Coriander Chutney |

   The controlling system of the microwave oven has the feature of cooling. As for any cooking mode which cooking time above 2 minutes, after finishing cooking, the oven fan will work about 3 minutes automatically to cool the oven for prolonging the life of the oven.
CLEANING AND CARE

1. Turn off the oven and remove the power plug from the wall socket before cleaning.
2. Keep the inside of the oven clean. When food splatters or spilled liquids adhere to oven walls, wipe with a damp cloth. Mild detergent may be used if the oven gets very dirty. Avoid the use of spray and other harsh cleaners as they may stain, streak or dull the door surface.
3. The outside surfaces should be cleaned with a damp cloth. To prevent damage to the operating parts inside the oven, water should not be allowed to seep into the ventilation openings.
4. Wipe the door and window on both sides, the door seals and adjacent parts frequently with a damp cloth to remove any spills or spatters. Do not use abrasive cleaner.
5. Do not allow the control panel to become wet. Clean with a soft, damp cloth. When cleaning the control panel, leave oven door open to prevent oven from accidentally turning on.
6. If steam accumulates inside or around the outside of the oven door, wipe with a soft cloth. This may occur when the microwave oven is operated under high humidity condition. And it is normal.
7. It is occasionally necessary to remove the glass tray for cleaning. Wash the tray in warm sudsy water or in a dishwasher.
8. The roller ring and oven floor should be cleaned regularly to avoid excessive noise. Simply wipe the bottom surface of the oven with mild detergent. The roller ring may be washed in mild sudsy water or dishwasher. When removing the roller ring from cavity floor for cleaning, be sure to replace in the proper position.
9. Remove odors from your oven by combining a cup of water with the juice and skin of one lemon in a deep microwaveable bowl, microwave for 5 minutes. Wipe thoroughly and dry with a soft cloth.
10. When it becomes necessary to replace the oven light, please consult a dealer to have it replaced.
11. The oven should be cleaned regularly and any food deposits removed. Failure to maintain the oven in a clean condition could lead to deterioration of the surface that could adversely affect the life of the appliance and possibly result in a hazardous situation.
12. Please do not dispose this appliance into the domestic rubbish bin; it should be disposed to the particular disposal center provided by the municipalities.
13. When the microwave oven with grill function is first used, it may produce slight smoke and smell. This is a normal phenomenon because the oven is made of a steel plate coated with lubricating oil, and the new oven will produce fumes and odor generated by burning the lubricating oil. This phenomenon will disappear after a period of using.
WARRANTY

IFB Industries Limited ("The Company") warrants to the original domestic purchase of this microwave oven ("Appliances") that it is free from defects in workmanship & materials. During 12 months from the date of purchase of the new microwave oven model, all the parts of the microwave oven and 36 months on Magnetron & Cavity, shall be replaced or repaired free of charge, on intimation to the Company I Company's authorized service centre nearest to the place where the appliance is installed.
