EXTEND THE LIFE OF YOUR LINEN

- Non toxic
- Low alkalinity
- Eco-friendly detergents and bleaches, ensuring minimum damage

Super Laundry Liquid Detergent

An effective detergent based on a blend of non-ionic surfactants and an optical brightener, its high dispersal action prevents soil redepositions.

Performance	<ul style="list-style-type: none"> • Excellent at removing dirt and oil soils • Uses washer action optimally for good foam control • Enhances fabric whiteness
-------------	---

Usage Guide	Add the liquid to the main wash cycle along with IFB Alkali Super Build
-------------	---

Quantity	5 Ltr
----------	-------

Dosage	By soil level (ml/kg of dry fabric) <ul style="list-style-type: none"> • Light 0.5–1.0 • Medium 1.5–2.0 • Heavy 2.0–2.5
--------	--

Best used with	IFB Alkali Super Build
----------------	------------------------

Super Bright Brightener

This brightener is an effective blend of speciality polymers and is primarily used in conjunction with alkalinity boosters and/or IFB Laundry Liquid detergents.

Performance	<ul style="list-style-type: none"> • Improve dispersion of fat and oil soils, enhancing washing of heavily soiled fabrics such as cotton and polyester/cotton workwear and table linen • Disperses insoluble inorganic calcium salts, while isolating hardness and heavy metal ions
Usage Guide	Add the product along with main wash cycle in case of hard water or heavily soiled fabrics
Quantity	5 Ltr
Dosage	Terry Towels, Bedsheets, Duvet Covers Pillowcases 2–4 ml/kg

Premium Liquid Emulsifier

This emulsifier provides excellent removal of difficult deposits from fabrics. It should be used in a prewash along with IFB Alkali Super Build or IFB Laundry Liquid Detergent.

Performance	<ul style="list-style-type: none"> • Excellent at removing fat and oil soils • Uses washer action optimally for good foam control • Ideally suited for use with pastel coloured fabrics
Usage Guide	Add the product in the prewash cycle
Quantity	5 Ltr
Dosage	By soil level (ml/kg of dry fabric) <ul style="list-style-type: none"> • Light 0.5–1.0 • Medium 1.0–1.5 • Heavy 1.5–2.5
Best used with	IFB Alkali Super Build

Super Sour Alkali Neutraliser

This alkali neutraliser is acidic and counters the build up of alkali, which prevents yellowing of fabrics.

Performance	<ul style="list-style-type: none">• Completely removes alkali from fabrics• Enables brighter washing• Prevents fabric damage• Helps remove rust stains• Enhances the whiteness of fabrics
Usage Guide	<ul style="list-style-type: none">• Add the product after the main wash or bleach and rinse cycles (before adding the softener)• The neutraliser should be added in the last rinse of a washer extractor or in the last section of a continuous batch washer
Quantity	5 Ltr
Dosage	(ml/kg dry fabric, depending upon final neutral pH) <ul style="list-style-type: none">• Light 1.5–2.0• Medium 2.0–3.5• Heavy 3.5–4.0

Alkali Super Build

This powerful alkali builder prevents the deposition of mineral salts on fabrics. Combined with bleach, it provides the best washing option for hospitals and other healthcare organisations. Using it in conjunction with IFB Super Laundry Liquid Detergent, enhances the washing of heavily soiled loads.

Performance	<ul style="list-style-type: none"> • Improves removal of food residue and greying of linen when combined with a surfactant booster or main wash detergent • Expands fabric fibres during washing to loosen dirt particles
Usage Guide	Add the liquid to the main wash cycle along with IFB Laundry Liquid Detergent
Quantity	5 Ltrs
Dosage	By soil level dosage (ml/kg dry fabric) <ul style="list-style-type: none"> • Light 3.5–5.0 • Medium 5.0–7.0 • Heavy 7.0–11.0
Best used with	IFB Super Laundry Liquid Detergent and IFB Premium Liquid Emulsifier

Soft Super Softener

This modified laundry softener provides a soft, silky feel to fabrics.

Performance	<ul style="list-style-type: none">• Improves the elasticity of fabrics• Provides long-lasting fabric smoothness• Easily dilutable• Suitable for towels, sheets, woollens and delicates
-------------	---

Usage Guide	Add the product in last rinse cycle
-------------	-------------------------------------

Quantity	4 Ltr
----------	-------

Dosage	5–15 gm/kg dry fabric
--------	-----------------------

Super XL Laundry Powder Detergent

This all-in-1 powder detergent is excellent at removal and dispersion of mud, fat and oil soils, when used in conjunction with IFB Premium Emulsifier. It may also be used with bleach for effective results.

Performance	<ul style="list-style-type: none"> • Unique blend of detergent and booster with oxibleach and optical brightening agent, perfect for hotel and hospital laundry • Excellent performance on fat and oil soils • Performs effectively on heavily soiled workwear/uniforms • Ensures long-lasting whiteness • Sequestering agents help counter moderate levels of water hardness
-------------	--

Usage Guide	Add the detergent in the main wash cycle
-------------	--

Quantity	5 Kg
----------	------

Dosage	(gm/kg dry fabric)
	• Light 3.0–5.0
	• Medium 5.0–7.0
	• Heavy 7.0–10.0

Best used with	IFB Premium Liquid Emulsifier
----------------	-------------------------------

Super Laundry Powder Detergent

This powder detergent is excellent at removal and dispersion of fat and oil soils, when used in conjunction with IFB Super Boost. Combining it with bleach results in effective cleaning of fabrics from the food industry, slaughter houses, fisheries etc.

Performance	<ul style="list-style-type: none"> • This unique product is excellent at removing fat and oil soils and is perfect for hotel and hospital laundries • Performs effectively on heavily soiled workwear/uniforms • Ensures long-lasting whiteness
Usage Guide	<ul style="list-style-type: none"> • Add the detergent in the main wash cycle along with IFB Super boost after the prewash
Quantity	5 Kg
Dosage	(gm/kg dry fabric) <ul style="list-style-type: none"> • Light 4.0–8.0 • Medium 8.0–15.0 • Heavy 15.0–25.0
Best used with	IFB Super Boost Booster

Super Boost Booster

This booster enhances the washing of heavily soiled fabrics when combined with a main wash detergent. It is suitable for use with cotton, linen, nylon and polyester. However, woollens, rayons, silks and other delicate fabrics should be avoided.

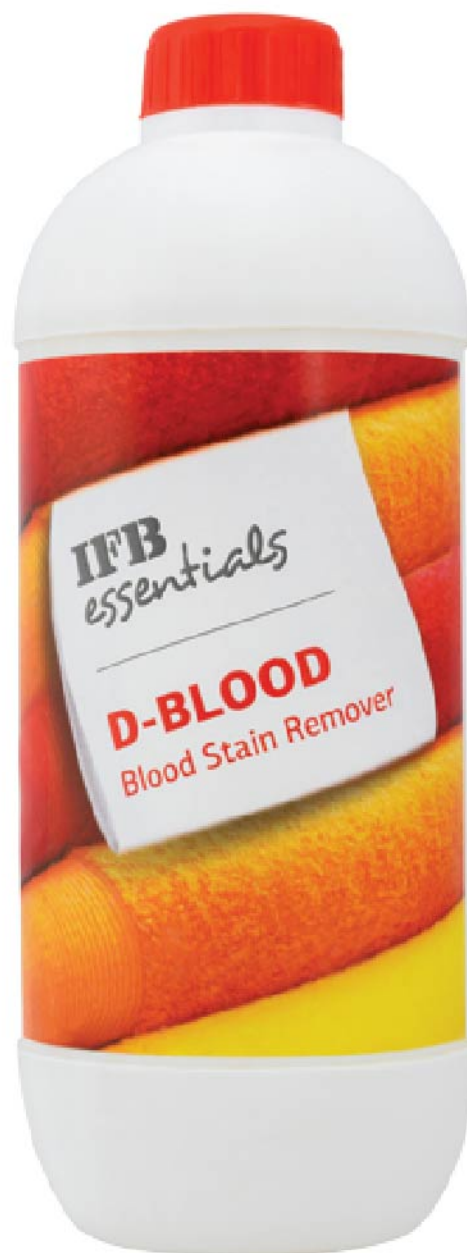

Performance	<ul style="list-style-type: none"> • Improves soil removal, especially of protein and fat stains when combined with a surfactant booster or main wash detergent • Improves wash performance by enhancing soil-fibre interaction • Prevents soils being redeposited on fabrics during washing
-------------	---

Usage Guide	Add the powder in the main wash cycle along with detergent
-------------	--

Quantity	5 Kg
----------	------

Dosage	(gm/kg dry fabric)
	<ul style="list-style-type: none"> • Light 5–8 • Medium 10–15 • Heavy 15–22

Best used with	IFB Alkali Super Build
----------------	------------------------

D-Blood Blood Stain Remover

This is a prewash blood stain remover. Apply the liquid to the affected area, wait 5 minutes and wash as usual.

Performance	<ul style="list-style-type: none"> This unique product removes blood stains excellently, making it perfect for hospital laundries
Usage Guide	<ul style="list-style-type: none"> Do not treat the stained fabric with chlorine or hot water prior to use Soak the stain in the D-Blood solution at 3-5 ml/kg of dry load The soaked laundry can then be washed in a washing machine with detergent using a normal wash cycle without draining the soak water
Quantity	1 Ltr
Dosage	4-6 ml/kg with wait for 5-10 minutes
Best used with	IFB Super Laundry Liquid Detergent

D-Ink Ink Stain Remover

This is a prewash ink stain remover. Apply the liquid to the affected area, wait 5 minutes and wash as usual.

Performance	• This unique product removes ink stains excellently
-------------	--

Usage Guide	<ul style="list-style-type: none">• Wet the affected area with water• Apply the liquid directly onto the stain and scrub with a medium hard brush till the stain is removed• Wash using water and then as usual
-------------	---

Quantity	1 Ltr
----------	-------

Dosage	Use as per stain area
--------	-----------------------

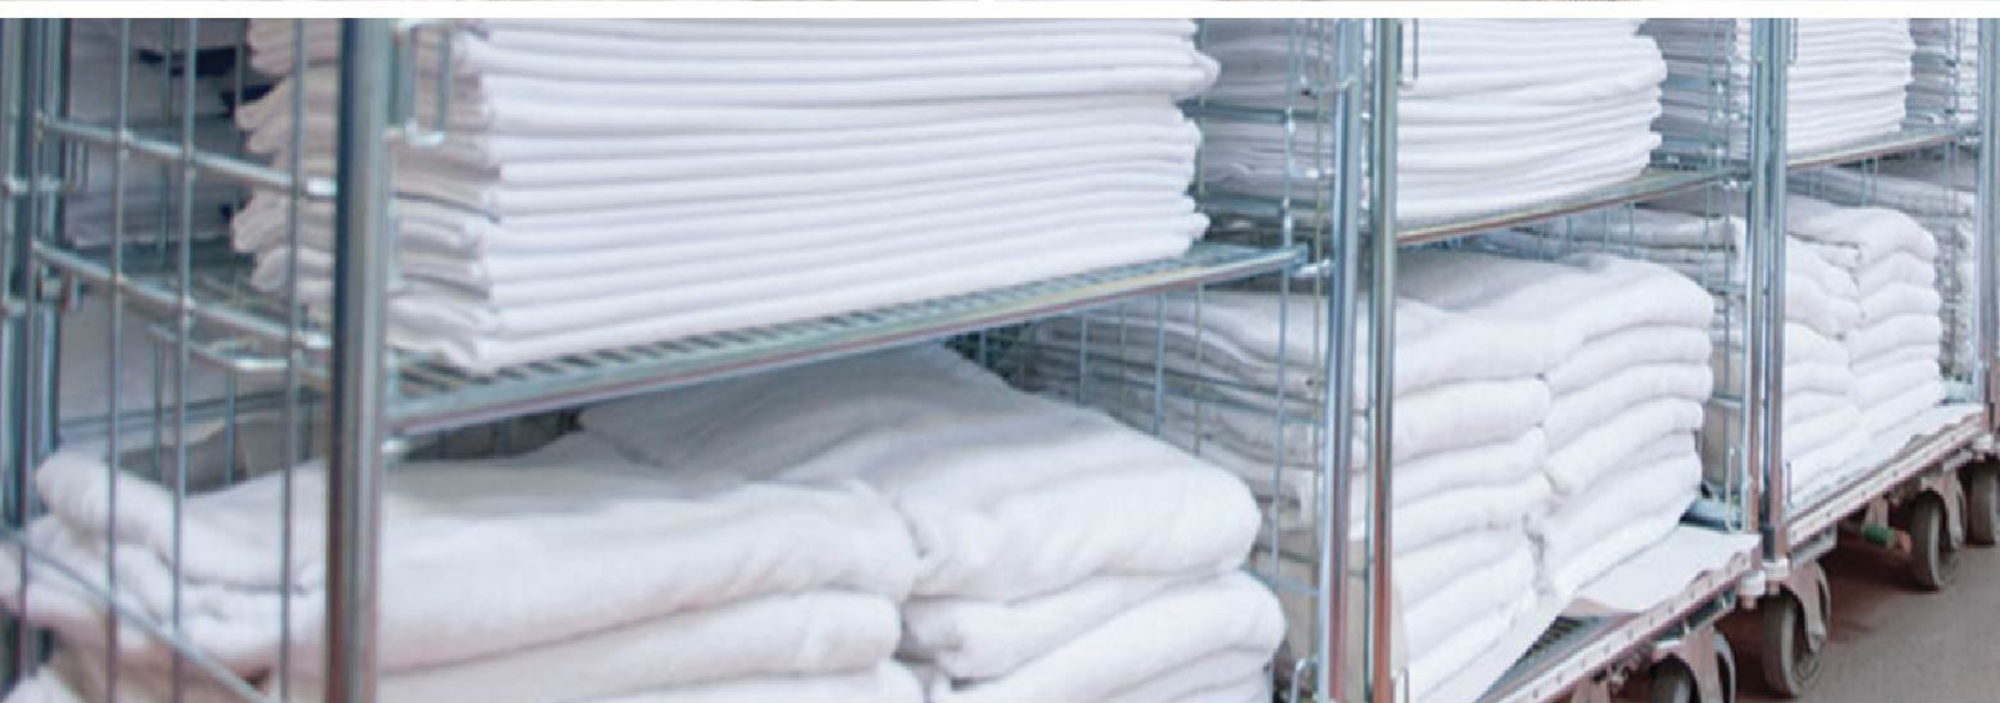

Best used with	IFB Super Laundry Liquid Detergent
----------------	------------------------------------

D-Rust Rust Stain Remover

This is a prewash rust stain remover. Apply the liquid to the affected area, wait 5 minutes and wash as usual.

Performance	• Excellently removes rust stains
Usage Guide	• Wet the affected area with water • Apply the liquid directly onto stain and scrub with a medium hard brush till stain is removed
Quantity	1 Ltr
Dosage	Use as per stain area
Best used with	IFB Super Laundry Liquid Detergent

IFB Commercial Laundry Solutions

Washes from 10 to 110 Kg—versatile solutions to handle large scale laundry efficiently.

100% GERM FREE

Hygienic washing and rinsing of clothes at temperatures up to 90°C.

QUICK TURNAROUND

Quick cycle time can handle loads at an average time of 45 minutes.

ECO-FRIENDLY

Reduced water, energy and detergent consumption to keep the planet green.

COST/MANPOWER SAVINGS

Our automated wash process, requires minimal human contact and 1/3 less manpower.
